

DYNAFLY

Our new impeller is designed to give high compression ratio pumps a stronger acceleration with less cavitation. This impeller is capable of giving your PWC an incredible boost in its acceleration. The SOLAS product line includes Dynafly impellers for the Kawasaki Ultra 150 pump and the Sea Doo 951 pump.

CONCORD

With features like a large blade area and a unique geometric blade design, the SOLAS Concord impeller delivers remarkable thrust and extraordinary efficiency. As four stroke technology becomes mainstream in the PWC world, the Concord design truly enhances the engine characteristics, not only delivering incredible acceleration, but excellent top end performance. From water skiing to high speed cruising, this technologically advanced Power Torque design with its radial leading edge will offer everything you could ask for in an impeller.

XPROP

The SOLAS X prop gives you the most powerful propulsion in the water from an advanced design that incorporates a high compression hub and cambered blades. Enthusiasts looking for speed and acceleration, from the novice to the professional, will be satisfied by using this impeller.

**SUPER CAMBER
A-B-C-D-E**

The Super Camber A-B-C-D-E series remains one of the most popular products in the personal watercraft market. The Super Camber blade has increased the flow and the thrust of the impeller, which gives you excellent value at a very attractive price, particularly for early model PWCs.

SUPER CAMBER S-I-J-K-H (NOT SHOWN)

The patented Super Camber S-I-J-K-H Series makes the hub and rubber seal even more streamlined, resulting in reduced drag for the impeller while increasing volumetric flow of the pump at the same time, making the SOLAS Super Camber series arguably the best in the PWC market.

SOLAS HIGH PERFORMANCE JET PUMPS

Solas proudly presents a new product line, the Jet Pump series, to the personal watercraft world. This new line of products is based on modern hydrodynamics design and intensive field testing from the Solas PWC racing champions. And now the same high performance pumps are available not only to professional but the recreational PWC enthusiasts as well.

SOLAS, the technology leader in high performance impellers, creates lots of outstanding advantages on its products. Solas always leads the competition in impeller design. From our straight pitch impeller, Super Camber Series, Xprop, Concord, and newly developed Dynafly series. Solas always improves the performance of your personal watercraft from low end acceleration, to top end speed and lets you enjoy the fun of being master of your PWC.

SOLAS INTAKE GRATES

Hook Up At All Times! The Solas aluminum intake grate is designed with an airfoil section which gives you efficiency, overall handling, and reliability. The airfoil section allows more water flow consistently into the pump to eliminate cavitation and improves hook up capability. Solas offers the two-foil IG-A and one-foil IG-B for early models. This year Solas introduced new models for the PWC Market. The GSX-IG-B, GTX-IG-B, and XP-IG-B are designed for the latest Sea-doo models, while the KH-IG-B is specially designed for the Kawasaki Ultra 150.
